EDUCATION

Masters in Software Engineering and Digital Transformation
ESIGELEC: Ecole Supérieure d'Ingénieurs généraliste

09/2022 - Present   *Saint-Étienne-du-Rouvray, France*

Bachelors of Technology
Sri Manakula Vinayagar Engineering College

08/2017 - 08/2021   *Pondicherry, India*

PROJECTS

Frontend-Ecommerce Website Using React
-Personal

The "Frontend E-commerce Website Using React" project is a dynamic web application designed to provide an immersive and user-friendly online shopping experience. Developed using React, a powerful JavaScript library for building user interfaces, this project aims to showcase modern web development skills and deliver a fully functional e-commerce website.

Banking System -Using Java
-Masters

The "Banking System Using Java" is a comprehensive software application that emulates the core functionalities of a real-world banking system. This project is designed to provide a hands-on learning experience in Java programming, database management, and software development for aspiring developers and students.

Tic tac toe and Face recognition using Machine Learning and Python
-Masters

Developed a Tic Tac Toe game and implemented Face Recognition using Machine Learning techniques and Python, showcasing practical skills in game development and computer vision applications.
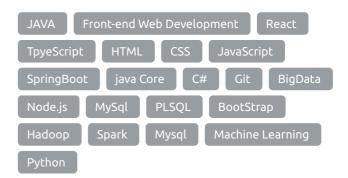

Android Mobile Development
-Masters

Experienced in mobile app development using Android Studio and Java, with a focus on data extraction, dynamic link generation, and seamless Google Search integration, utilizing OCR for advanced text processing.

HDFS and MapReduce for Statistical Analysis
-Masters

Utilized Hadoop Distributed File System (HDFS), MapReduce, and Apache Spark for statistical analysis, demonstrating proficiency in big data processing and analytics.

SKILLS

`JAVA` `Front-end Web Development` `React` `TpyeScript` `HTML` `CSS` `JavaScript` `SpringBoot` `java Core` `C#` `Git` `BigData` `Node.js` `MySql` `PLSQL` `BootStrap` `Hadoop` `Spark` `Mysql` `Machine Learning` `Python`

PROFESSIONAL EXPRIENCE

Lumina Datamatics (10/2021 - 07/2022)
Technical Editor: As a Technical Editor at [Lumina Datamatics], I played a critical role in ensuring the accuracy, clarity, and quality of technical documentation and written materials related to [specific area of expertise, e.g., software development, IT infrastructure, web development]

CERTIFICATES

Frontend Development using React-Coursera
Completed courses covering the fundamentals of HTML, CSS, JavaScript, and React. Acquired a comprehensive understanding of web development technologies, including key concepts like components, state, props, and JSX in React, and their seamless integration to create dynamic and interactive user interfaces

Data Structure and Backend in Java -Coursera
Mastered Java programming for backend development, acquired proficiency in data structures, and applied this knowledge to real-world projects using Spring Boot.
