

# Pradeep DEIVAMANI

**Software Engineer**

## CONTACT

@ pradeepdeivamani03@gmail.com
TEL +33 7 80 81 09 93
LOC Paris, France
GH github.com/PradeepDEIVAMANI
in LinkedIn Profile

## TECHNICAL SKILLS

**Backend**
Java, Spring Boot, Spring Batch, Spring Data JPA, Hibernate, REST APIs, Python, Django, FastAPI

**Frontend**
React, JavaScript, HTML, CSS, Tailwind CSS

**DevOps**
Docker, Kubernetes, Jenkins, GitLab CI/CD, Argo CD, SonarQube, Terraform, Ansible

**Integration & security**
IBM MQ, IBM COS / S3, CFT, OpenPGP, Bouncy Castle, HashiCorp Vault

**Data**
PostgreSQL, MySQL, H2, Flyway, SQL

**Monitoring**
Kibana, Elasticsearch, IBM Log Analysis

**Tools**
Jira, ServiceNow, Git, Linux, IBM Cloud

## LANGUAGES

**English:** Fluent
**French:** B1
**Tamil:** Native

## DOMAINS

Enterprise banking systems
Application integration
Secure file exchange
High-volume batch processing

## CORE STRENGTHS

Production support
Incident investigation
Log analysis
Performance testing
Problem solving
Code review
Business collaboration
Agile and Scrum

**PORTFOLIO**

## PROFESSIONAL SUMMARY

Software Engineer specializing in Java, Spring and DevOps, with experience building enterprise banking systems. Develops REST APIs, IBM MQ workflows and secure batch pipelines; deploys and supports Kubernetes applications in production, with a strong focus on reliability, security and quality.

## PROFESSIONAL EXPERIENCE

**BNP PARIBAS — BCEF IT · WORKFLOW** **12/2024 — Present**
Software Engineer Consultant · Paris, France

- Designed and maintained 12 Spring Batch applications processing around 200,000 records per day, from CSV ingestion through IBM COS / S3 to business processing, database persistence and archival.
- Built 2 IBM MQ orchestration services that consume multiple queues, apply business rules and route TAR archives to downstream teams and systems.
- Secured exchanges with PGP encryption and decryption using Bouncy Castle; managed certificates and secrets in HashiCorp Vault, then handled CFT transfers and cloud archival.
- Developed a REST API to retrieve, create, update and delete COS documents, attachments and metadata, including publication of MQ events.
- Automated case-document archiving by retrieving case details and attachments, generating follow-up attestation PDFs, and archiving documents with their metadata.
- Built database-to-JSON exports and encrypted CSV deliveries through COS and CFT; deployed services and CronJobs to Kubernetes with Argo CD and GitLab CI/CD.
- Provided production support and performance analysis; investigated logs, MQ queues, managers and blocked messages using Kibana, ServiceNow and IBM Log Analysis.
- Collaborated with business analysts and process experts in Scrum on requirements, reviews and corrections; used pair and mob programming and tracked work in Jira.

**BNP PARIBAS — BCEF IT · WORKFLOW** **03/2024 — 09/2024**
Software Engineering Intern · Paris, France

- Developed Java, Spring Boot and Spring Batch applications for banking workflows; migrated JDBC queries to Spring Data JPA and Hibernate.
- Created automated tests with TDD, BDD, JUnit and Mockito; worked with PostgreSQL, H2, Flyway, Docker, Kubernetes and IBM Cloud.

**TATA CONSULTANCY SERVICES** **10/2021 — 07/2022**
Technical Engineer · India

- Developed and tested Java applications using TDD, JUnit and Mockito, improving code quality, maintainability and reliability.
- Contributed to code reviews and continuous improvement in a collaborative software delivery team.

## EDUCATION

Master's in Software Engineering and Digital Transformation · 09/2022 — 09/2024
ESIGELEC, Saint-Étienne-du-Rouvray, France · Specialization in Java, DevOps and cloud computing.

Bachelor of Technology · 08/2017 — 08/2021
Sri Manakula Vinayagar Engineering College, Puducherry, India · Graduated with distinction.

## PROJECTS

Java Batch Processor — Java 17 / Spring Batch application using Spring Data JPA to read, process and persist CSV records; includes job tests.

Identity Data Extractor — React and Python application exploring automated identity-data extraction from images with YOLOv8 and OpenCV.

Banking Application — Java / Spring Boot project demonstrating banking operations, REST APIs and SQL persistence.

## RESEARCH & PUBLICATION

Co-author, "Semantic User-Centered Mobile Services and Data Collection from Textual Images," 4th IEEE International Conference on Software Engineering and Artificial Intelligence (SEAI 2024), Xiamen, China. Research on semantic mobile services and information extraction from textual images. IEEE Xplore ↗

## CERTIFICATIONS

IBM Professional Certificate in Applied DevOps — Git, Jenkins, Docker, Kubernetes, OpenShift and IBM Cloud.

Data Structures and Backend in Java — Coursera · Java programming and backend development.

Frontend Development with React — Coursera · HTML, CSS, JavaScript and React.
